

# I-405 Sepulveda Pass Improvements Project

Segment 1

**Construction Notice: Northbound I-405 Additional Lane**

May 22, 2013

## SUMMARY

A new 1.7 mile general purpose lane is scheduled to open to motorists on the northbound I-405 from the I-10 to the Santa Monica Bl off-ramp, **Friday, May 24 at 5am.**

This new lane is expected to provide congestion relief benefits for motorists traveling the northbound I-405 and I-10 interchange. The contractor has completed major structure, widening and median work for the lane. The recent nighttime full closures of the northbound I-405 have allowed this work to be completed.

The new #1 lane, closest to the freeway median, will later be converted to the future High Occupancy Vehicle Lane (HOV).

## NOTEWORTHY

Opening of the new traffic lane will add capacity for 1,500 to 2,000 vehicles per hour on this portion of the I-405.

## ESSENTIALS

A new 1.7 mile general purpose lane on the northbound I-405 from the I-10 to the Santa Monica Bl off-ramp is scheduled to open to motorists May 24.

## WHAT TO EXPECT

The 1.4 mile extension of this additional lane to Wilshire Bl is scheduled to open June 2013.
